

# BRAIN GAIN

## Making Regions more resilient!

CoR POLITICAL WORKSHOP

# PROGRAMME

### MODERATOR

- **Luciano Emilio Caveri**

*Regional Minister for European Affairs, Innovation, PNRR and National Mountain Policies and CoR member - **Valle d'Aosta autonomous Region (IT)***

The workshop moderated by Mr Caveri will bring together representatives from four European regions to explore and compare strategies, challenges, and solutions related to the **brain drain, regional depopulation, and NEETs** phenomena. The aim is to identify challenges and build concrete and innovative solutions, such as the **Smart Villages** approach, for a more sustainable and inclusive future.

### SPEAKERS

- **Alessandro Delli Noci**

*Regional Minister for Economic Development - **Puglia Region (IT)***

Mr Delli Noci will present the **"#mareAsinistra" strategy** for attracting and enhancing talents in Puglia. This strategy is designed to engage stakeholders and attract international talents, with the goal of boosting development opportunities in highly innovative sectors.

- **Monika Michniewicz**

*Social Services Manager, Social Organisations Federation (FOSA) - **Warmia-Mazury Voivodeship (PL)***

She will describe the **activities of the FOSA**, which include a scholarship fund to develop the social involvement and competences of young people, promoting a proactive and pro-social attitude.

- **Barbara Moroder**

*Coordinator of the Talentcenter and of the School-Economics of Bozen - **European Region Tyrol-South Tyrol-Trentino (AT/IT)***

Mrs Moroder will present some of the activities of the **Talentcenter**, such as supporting middle school students in career orientation and helping them identify their strengths and talents.

- **Arne Håkon Sandnes**

*Project Manager and Advisor on Water Management and Environmental Sustainability from the Møre and Romsdal County Authority - **West Norway Region (NO)***

Mr Sandnes will introduce the **"YENESIS" project**, which aims at reducing youth unemployment by creating green jobs in island communities, focusing on energy efficiency, renewables, sustainable tourism, and mobility.
