What is Expedia's Change Flight Policy?

Before you dive into your flight changes, it's important to understand Expedia's policy on flight changes. Expedia acts as a third-party airline booker, which means that the specific terms of your flight change may vary depending on the airline you book with and the type of ticket you buy. There are generally two main types of tickets there: refundable and non-refundable.

Expedia Refundable Tickets:

Refundable tickets typically allow for more flexibility in making changes to your flight ticket booked through Expedia.

Expedia may charge a fee for modifying refundable tickets, but these fees are usually lower compared to non-refundable tickets. That too applicable after 24 hours of initial booking.

Know- How do I get a refund from Expedia?

You can reach out to their customer service team at [+1-833:488:6498 (Fast Support)] or **EXPEDIA®** + "1-855-71"8-1238" to cancel your flight ticket and request a refund. Alternatively, you can initiate the process online through the Expedia My Trips section on the Expedia website and submit a refund request form.

In addition, as we said, Expedia is a third-party OTA, so it's crucial to review the terms and conditions of your ticket before proceeding to make any changes to your flight booking with Expedia. Expedia provides detailed information regarding your booking, including the type of ticket purchased and any associated fees or restrictions.

Non-Refundable Tickets:

Non-refundable tickets come with more restrictions and may incur higher fees for changes or cancellations. After cancellations are made within 24 hours of booking, you can get flight credit that can be used for your future travel.

However, in some cases, non-refundable tickets may not be eligible for changes or refunds at all.
