

Cohesion Policy at its best

Showcasing how it is changing
the daily life of European citizens

Every corner of Europe is full of great examples that demonstrate the crucial role Cohesion Policy is playing in supporting the development strategies of cities and regions and combating social, economic and territorial disparities.

This exhibition showcases some of the inspiring stories sent to the #CohesionAlliance by local and regional leaders, managing authorities and administrations.

The aim is to show the impact that Cohesion Policy funds have on local communities and the daily life of citizens. Only local and regional authorities, which are the level of government closest to citizens, are able to bring this added value to the EU stage.

As the debate on the future of Cohesion Policy has already started, let's remind all EU and national decision-makers of the indispensable role that Cohesion Policy plays in the European integration process - and how vital it remains for its future.

The #CohesionAlliance is a coalition of those who believe that EU Cohesion Policy must continue to be a pillar of the EU's future.
